## About Us

SMP Engineering Solutions Limited is the prominent company delivering broad engineering, Procurement, Construction, Maintenance and Logistics Services to various industries while combining quality, reliability and compliance.

## Our Vision

To be a reference company in turning Engineering, Procurement, Construction, Maintenance and Logistics Concepts into Reality in various industries nationwide.

## Our Mission

To Provide complete; quality assured and value driven Engineering, Procurement, Construction, Maintenance and Logistics Services; also, to be a ubiquitous participant in the Oil and Gas Sector with a motivated workforce and a happy host community whilst aiming to exceed our clients' most stringent requirements using up-to-date equipment and technical skills.

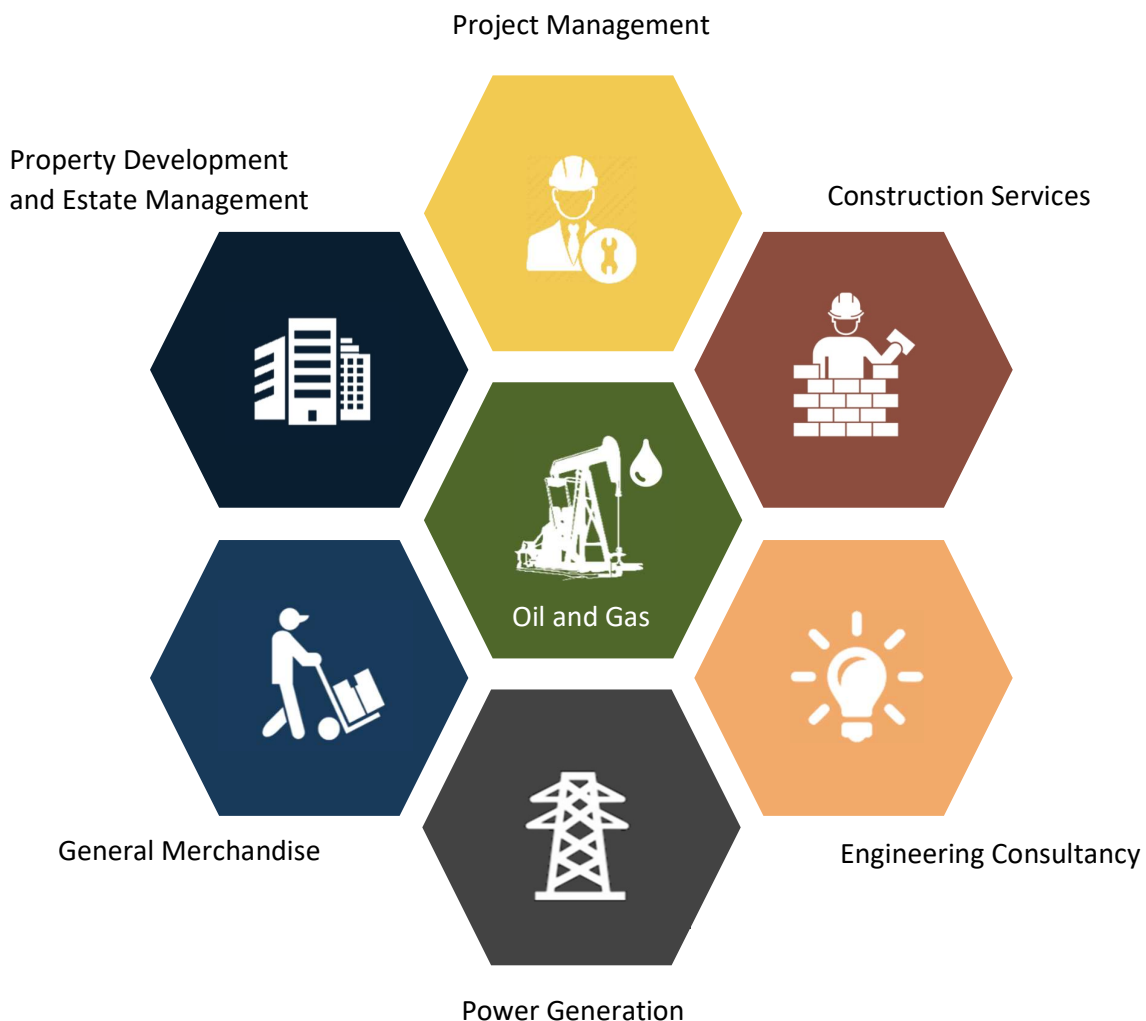

.

## An Overview of Our Services

At SMP Engineering Solutions Limited, we pride ourselves on our reliability in producing excellent results. Our company fosters an innovative problem-solving environment that presents fast and flexible responses to client needs. The highly qualified team at SMP can offer complete engineering services from the project feasibility phase through to detailed design and construction management.

Over the years, we have also gained invaluable experience as a result of our ability to take on several projects irrespective of the size or industry. Our unique approach to project management and problem solving has provided us with success stories in several sectors, including power, construction, oil and gas, property management, renewable energy, consultancy, foreign and local trade, among others.
